

Imperium Luxury H 120 - H 60

Class AB 1 tube amp guitar head

- Class AB 1 tube amp guitar head
- 4 X 12AX7 and 4 x 6L6GC tubes for LUXURY H120
- 4 X 12AX7 and 2 x 6L6GC tubes for LUXURY H60
- Power output: 120W or 60W RMS @ 4-8-16 ohm
- 8 custom analog sounds, "USER" re-writable
- Post-preamp parametric tone controls
- Independent effect loops in series/parallel with memory
- Pre-FX / Post-FX volume footswitch connection

H60 Bruto excl. 1429,00
H120 Bruto excl. 1529,00

Imperium H150

Switchable 150W/50W/11W Guitar Amp Head

- Class AB1 tube amp head
- 5 x 12AX7 and 4 x 5881/6L6GC tubes
- 3 switchable power outputs: 150W, 50W, 11W, allows for use in concert, club and rehearsal venues without compromising tone
- 6 custom analog sounds with 127 user selectable & storable presets accessible from the amps control panel or via a midi footswitch
- 2 sound enhancements: "Classic" and "Modern"
- 4 pre-preamp effect loops
- 1 Post-preamp effect loop control, variable (dry/wet) level control
- Four 9V DC power supply jacks: eliminates the need for wall wart power supplies or batteries to power your effect pedals

H150 Bruto excl. 1379,00

Imperium H50

50W Guitar Amp Head

- Class AB tube amp guitar head, MOSFET buffered
- 4 x 12AX7 tubes
- Power output: 50WRMS @ 8ohms
- 6 custom analog sounds with 127 user selectable / programmable & storable presets accessible from the amps control panel or via a midi footswitch
- 2 pre-preamp effect loops
- 1 Post-preamp effect loop with series/parallel switch
- Slave amp output jack
- Two 9V DC power supply jacks: eliminates the need for wall wart power supplies or batteries to power your effect pedals

- 3 x 12AX7 and 2 x 6V6 tubes
- 2 x 10" JENSEN ALNICO Magnet vintage woofers for "Classic" sound reproduction
- Power output: 20WRMS with factory set tubes. 30W, with user switchable 5881 tubes
- Single channel with boost switch
- Post -preamp effect loop with series/ parallel switch
- Bass, Middle, Treble EQ + Presence
- Footswitch input jack for BOOST and EFFECT BYPASS

6V6 AMP Bruto excl. 979,00

Brutus Combo Class AB Tube Guitar Amp

Brutus Guitar Amps series have been developed in collaboration with the Italian Guitarist "virtuoso" Donato Begotti. With an "all-tube" amp circuitry design the BRUTUS series provide superb balanced sounds, with great harmonics and dynamics. Every BRUTUS model stands out for:

- Unbeatable Transportability
- Extreme Ease of Use
- Incredible Guitar Sounds

The BRUTUS COMBO is the newest amp solution for stage and home rehearsals. With its electronics integrated with the speaker enclosure, the BRUTUS COMBO is a power machine that can supply 15W rms with built-in "Power Braking" inductive speaker attenuation facility selectable through a LOW button: it keeps the amp power load to its maximum power, though attenuating the output to 1W rms; this function is the ideal for getting overdriven tones at reasonable volume, hard rock in studio or at home. When the power brake is on, the BRUTUS COMBO responds like as being on stage, and grants unbeatable attack and dynamics at the lowest volume. The BRUTUS COMBO is the ideal partner for the recording guitarist, developing his personal playing touch and helping him with remarkable recordings.
